Algebraic Geometry: Part I: Schemes. With Examples and Exercises (Advanced Lectures in Mathematics) Ulrich Görtz, Torsten Wedhorn

This book introduces the reader to modern algebraic geometry. It presents Grothendieck's technically demanding language of schemes that is the basis of the most important developments in the last fifty years within this area. A systematic treatment and motivation of the theory is emphasized, using concrete examples to illustrate its usefulness. Several examples from the realm of Hilbert modular surfaces and of determinantal varieties are used methodically to discuss the covered techniques. Thus the reader experiences that the further development of the theory yields an ever better understanding of these fascinating objects. The text is complemented by many exercises that serve to check the comprehension of the text, treat further examples, or give an outlook on further results. The volume at hand is an introduction to schemes. To get started, it requires only basic knowledge in abstract algebra and topology. Essential facts from commutative algebra are assembled in an appendix. It will be complemented by a second volume on the cohomology of schemes.

From reader reviews:

Claudia Fox:

The experience that you get from Algebraic Geometry: Part I: Schemes. With Examples and Exercises (Advanced Lectures in Mathematics) will be the more deep you excavating the information that hide in the words the more you get considering reading it. It does not mean that this book is hard to understand but Algebraic Geometry: Part I: Schemes. With Examples and Exercises (Advanced Lectures in Mathematics) giving you joy feeling of reading. The article author conveys their point in certain way that can be understood by anyone who read that because the author of this book is well-known enough. This particular book also makes your vocabulary increase well. Therefore it is easy to understand then can go along, both in printed or e-book style are available. We propose you for having this particular Algebraic Geometry: Part I: Schemes. With Examples and Exercises (Advanced Lectures in Mathematics) instantly.

Tracey Cook:

Algebraic Geometry: Part I: Schemes. With Examples and Exercises (Advanced Lectures in Mathematics) can be one of your nice books that are good idea. We all recommend that straight away because this reserve has good vocabulary that will increase your knowledge in words, easy to understand, bit entertaining but nonetheless delivering the information. The article writer giving his/her effort to get every word into pleasure arrangement in writing Algebraic Geometry: Part I: Schemes. With Examples and Exercises (Advanced Lectures in Mathematics) yet doesn't forget the main stage, giving the reader the hottest along with based confirm resource information that maybe you can be one among it. This great information can certainly drawn you into completely new stage of crucial thinking.

Julie Chambers:

Reading a book to get new life style in this calendar year; every people loves to learn a book. When you study a book you can get a lot of benefit. When you read textbooks, you can improve your knowledge, since book has a lot of information in it. The information that you will get depend on what forms of book that you have read. If you want to get information about your study, you can read education books, but if you want to entertain yourself you are able to a fiction books, such us novel, comics, and also soon. The Algebraic Geometry: Part I: Schemes. With Examples and Exercises (Advanced Lectures in Mathematics) will give you a new experience in reading through a book.

Jeri McKeen:

As a student exactly feel bored to help reading. If their teacher questioned them to go to the library in order to make summary for some guide, they are complained. Just little students that has reading's soul or real their pastime. They just do what the professor want, like asked to the library. They go to there but nothing reading very seriously. Any students feel that examining is not important, boring and can't see colorful images on there. Yeah, it is for being complicated. Book is very important for you. As we know that on this time, many

ways to get whatever we want. Likewise word says, ways to reach Chinese's country. Therefore , this Algebraic Geometry: Part I: Schemes. With Examples and Exercises (Advanced Lectures in Mathematics) can make you truly feel more interested to read.
