Armed with what you discover, you’ll understand yourself and others far better!

ID16 is a personality typology which draws on the theory developed by Carl Gustav Jung. Typologies formulated on the basis of Jung’s theory are widely used in teaching, training, coaching and human resource management, as well as in career and relationship counselling. They also form a basis for numerous programmes supporting personal development and improving interpersonal relationships. The majority of global businesses employ Jungian personality tests as a standard tool in their recruitment procedures and vocational development processes.
