Web Based Application Development

Ralph F. Grove

Web Based Application Development Ralph F. Grove

Perfect for the one-term course, Web-Based Application Development present an introduction to concepts, theories, practices, languages, and tools used to develop applications for the World Wide Web. It provides coverage of the important fundamentals of Web applications while providing the coverage of programming and technology necessary to apply these ideas and put them into practice. In addition to presenting the language and tools found in most texts, Web-Based Application Development goes beyond and includes networking, architecture, security, reliability, and other important concepts and theories necessary today.
