Design of Steel Transmission Pole Structures (Standard ASCE/SEI 48-11) (Asce Standards) American Society of Civil Engineers

This Standard provides a uniform basis for the design, detailing, fabrication, testing, assembly, and erection of steel tubular structures for electrical transmission poles. These guidelines apply to cold-formed single- and multipole tubular steel structures that support overhead transmission lines. The design parameters are applicable to guyed and self-supporting structures using a variety of foundations, including concrete caissons, steel piling, and direct embedment. Standard ASCE/SEI 48-11 replaces the previous edition (ASCE/SEI 48-05) and revises some formulas that are based on other current industry standards. This Standard includes a detailed commentary and appendixes with explanatory and supplementary information. This Standard will be a primary reference for structural engineers and construction managers involved in designing and building electrical transmission lines, as well as engineers and others involved in the electric power transmission industry.

From reader reviews:

Gloria Robey:

Here thing why that Design of Steel Transmission Pole Structures (Standard ASCE/SEI 48-11) (Asce Standards) are different and reputable to be yours. First of all examining a book is good nevertheless it depends in the content of it which is the content is as delightful as food or not. Design of Steel Transmission Pole Structures (Standard ASCE/SEI 48-11) (Asce Standards) giving you information deeper as different ways, you can find any guide out there but there is no book that similar with Design of Steel Transmission Pole Structures (Standard ASCE/SEI 48-11) (Asce Standards). It gives you thrill reading journey, its open up your current eyes about the thing in which happened in the world which is perhaps can be happened around you. It is easy to bring everywhere like in playground, café, or even in your way home by train. In case you are having difficulties in bringing the branded book maybe the form of Design of Steel Transmission Pole Structures (Standard ASCE/SEI 48-11) (Asce Standards) in e-book can be your alternate.

Curtis Miller:

The guide untitled Design of Steel Transmission Pole Structures (Standard ASCE/SEI 48-11) (Asce Standards) is the publication that recommended to you to read. You can see the quality of the guide content that will be shown to anyone. The language that creator use to explained their ideas are easily to understand. The article author was did a lot of research when write the book, and so the information that they share to you personally is absolutely accurate. You also will get the e-book of Design of Steel Transmission Pole Structures (Standard ASCE/SEI 48-11) (Asce Standards) from the publisher to make you a lot more enjoy free time.

Elmer August:

Your reading sixth sense will not betray a person, why because this Design of Steel Transmission Pole Structures (Standard ASCE/SEI 48-11) (Asce Standards) book written by well-known writer who really knows well how to make book that can be understand by anyone who have read the book. Written throughout good manner for you, dripping every ideas and publishing skill only for eliminate your hunger then you still hesitation Design of Steel Transmission Pole Structures (Standard ASCE/SEI 48-11) (Asce Standards) as good book not simply by the cover but also from the content. This is one reserve that can break don't determine book by its handle, so do you still needing yet another sixth sense to pick this!? Oh come on your reading sixth sense already alerted you so why you have to listening to a different sixth sense.

Shirley Kier:

That e-book can make you to feel relax. This kind of book Design of Steel Transmission Pole Structures (Standard ASCE/SEI 48-11) (Asce Standards) was colorful and of course has pictures on there. As we know that book Design of Steel Transmission Pole Structures (Standard ASCE/SEI 48-11) (Asce Standards) has many kinds or variety. Start from kids until teenagers. For example Naruto or Detective Conan you can read

and think that you are the character on there. So , not at all of book tend to be make you bored, any it offers up you feel happy, fun and chill out. Try to choose the best book to suit your needs and try to like reading which.
