Overcoming Challenges in Software Engineering Education: Delivering Non-Technical Knowledge and Skills (Advances in Higher Education and Professional ... Education and Professional Development (A) Liguo Yu

Computer science graduates often find software engineering knowledge and skills are more in demand after they join the industry. However, given the lecture-based curriculum present in academia, it is not an easy undertaking to deliver industry-standard knowledge and skills in a software engineering classroom as such lectures hardly engage or convince students.

Overcoming Challenges in Software Engineering Education: Delivering Non-Technical Knowledge and Skills combines recent advances and best practices to improve the curriculum of software engineering education. This book is an essential reference source for researchers and educators seeking to bridge the gap between industry expectations and what academia can provide in software engineering education.

From reader reviews:

Mary Ayala:

Information is provisions for folks to get better life, information currently can get by anyone from everywhere. The information can be a expertise or any news even a huge concern. What people must be consider whenever those information which is within the former life are hard to be find than now could be taking seriously which one works to believe or which one the actual resource are convinced. If you have the unstable resource then you understand it as your main information we will see huge disadvantage for you. All of those possibilities will not happen inside you if you take Overcoming Challenges in Software Engineering Education: Delivering Non-Technical Knowledge and Skills (Advances in Higher Education and Professional ... Education and Professional Development (A) as the daily resource information.

John Harrison:

Does one one of the book lovers? If yes, do you ever feeling doubt if you find yourself in the book store? Try and pick one book that you just dont know the inside because don't judge book by its include may doesn't work at this point is difficult job because you are frightened that the inside maybe not seeing that fantastic as in the outside search likes. Maybe you answer could be Overcoming Challenges in Software Engineering Education: Delivering Non-Technical Knowledge and Skills (Advances in Higher Education and Professional ... Education and Professional Development (A) why because the excellent cover that make you consider about the content will not disappoint you. The inside or content will be fantastic as the outside or maybe cover. Your reading sixth sense will directly direct you to pick up this book.

Margaret Wynkoop:

That reserve can make you to feel relax. This book Overcoming Challenges in Software Engineering Education: Delivering Non-Technical Knowledge and Skills (Advances in Higher Education and Professional ... Education and Professional Development (A) was colourful and of course has pictures on there. As we know that book Overcoming Challenges in Software Engineering Education: Delivering Non-Technical Knowledge and Skills (Advances in Higher Education and Professional ... Education and Professional Development (A) has many kinds or type. Start from kids until youngsters. For example Naruto or Private investigator Conan you can read and think that you are the character on there. Therefore , not at all of book are make you bored, any it offers up you feel happy, fun and loosen up. Try to choose the best book to suit your needs and try to like reading which.

Lisa Mercado:

As a student exactly feel bored to be able to reading. If their teacher inquired them to go to the library or even make summary for some publication, they are complained. Just little students that has reading's heart and soul or real their interest. They just do what the professor want, like asked to go to the library. They go

to presently there but nothing reading really. Any students feel that reading through is not important, boring in addition to can't see colorful pics on there. Yeah, it is to get complicated. Book is very important for yourself. As we know that on this period, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. Therefore , this Overcoming Challenges in Software Engineering Education: Delivering Non-Technical Knowledge and Skills (Advances in Higher Education and Professional ... Education and Professional Development (A) can make you experience more interested to read.
