What Makes It Page?: The Windows 7 (x64) Virtual Memory Manager

Enrico Martignetti

What Makes It Page?: The Windows 7 (x64) Virtual Memory Manager Enrico Martignetti

This is a book for curious people. It attempts to answer the basic question “how does it work?” As such, it does not explain how to call documented APIs and DDIs to accomplish some specific goal. There is plenty of information available on these subjects, including the MSDN Library, the WDK documentation and several excellent books. Rather, its purpose is to analyze how the Virtual Memory Manager works, simply because it is something worth knowing. With a certain mindset, it might even be something fun to know. Even though this book gives a fairly detailed description of the Virtual Memory Manager, it is not reserved for experienced kernel level programmers. Parts I and II provide information on the x64 processor and enough details on kernel mode code execution to help readers approaching these subjects for the first time. This book describes the Windows 7 x64 implementation of the Virtual Memory Manager. All of the analysis and experiments have been performed on this particular version only.

From reader reviews:

Susie Vadnais:

What do you concerning book? It is not important along? Or just adding material when you want something to explain what you problem? How about your time? Or are you busy individual? If you don't have spare time to try and do others business, it is make you feel bored faster. And you have spare time? What did you do? Everyone has many questions above. They should answer that question due to the fact just their can do that will. It said that about publication. Book is familiar on every person. Yes, it is right. Because start from on pre-school until university need this specific What Makes It Page?: The Windows 7 (x64) Virtual Memory Manager to read.

Herman Pendergrass:

What Makes It Page?: The Windows 7 (x64) Virtual Memory Manager can be one of your basic books that are good idea. Many of us recommend that straight away because this e-book has good vocabulary which could increase your knowledge in words, easy to understand, bit entertaining but delivering the information. The copy writer giving his/her effort that will put every word into pleasure arrangement in writing What Makes It Page?: The Windows 7 (x64) Virtual Memory Manager but doesn't forget the main level, giving the reader the hottest and also based confirm resource info that maybe you can be considered one of it. This great information may drawn you into new stage of crucial thinking.

Walter Pressley:

Your reading sixth sense will not betray anyone, why because this What Makes It Page?: The Windows 7 (x64) Virtual Memory Manager e-book written by well-known writer who knows well how to make book that could be understand by anyone who read the book. Written throughout good manner for you, dripping every ideas and writing skill only for eliminate your own hunger then you still skepticism What Makes It Page?: The Windows 7 (x64) Virtual Memory Manager as good book not merely by the cover but also with the content. This is one publication that can break don't assess book by its handle, so do you still needing a different sixth sense to pick this particular!? Oh come on your examining sixth sense already said so why you have to listening to an additional sixth sense.

Jason Caldwell:

This What Makes It Page?: The Windows 7 (x64) Virtual Memory Manager is great book for you because the content which is full of information for you who also always deal with world and get to make decision every minute. This kind of book reveal it information accurately using great arrange word or we can say no rambling sentences inside. So if you are read the idea hurriedly you can have whole details in it. Doesn't mean it only gives you straight forward sentences but difficult core information with lovely delivering sentences. Having What Makes It Page?: The Windows 7 (x64) Virtual Memory Manager in your hand like getting the world in your arm, data in it is not ridiculous one. We can say that no e-book that offer you world

with ten or fifteen small right but this reserve already do that. So , this can be good reading book. Hello Mr. and Mrs. stressful do you still doubt in which?
