Multivariable Calculus Plus NEW MyMathLab with Pearson eText-- Access Card Package (2nd Edition) (Briggs/Cochran/Gillett Calculus 2e) Bill Briggs, Lyle Cochran, Bernard Gillett

This much anticipated second edition of the most successful new calculus text published in the last two decades retains the best of the first edition while introducing important advances and refinements. Authors Briggs, Cochran, and Gillett build from a foundation of meticulously crafted exercise sets, then draw students into the narrative through writing that reflects the voice of the instructor, examples that are stepped out and thoughtfully annotated, and figures that are designed to teach rather than simply supplement the narrative. The authors appeal to students' geometric intuition to introduce fundamental concepts, laying a foundation for the development that follows.
