True Crime Box Set Vol. 1-4

Discover some of the most shocking crimes committed by the very people the victims loved and trusted.

Dads Who Kill

What would drive a father to murder his own children? The idea of anyone killing a child, especially a parent, is incomprehensible. Still, it happens and when it does the country goes into shock.

Dads are meant to give their life for their children, not selfishly take the lives of their children.

Moms Who Kill

Mothers are supposed to be protective and shield their children from danger and destruction. Every child expects their mom to be there for them and instinctively trusts them. They would never expect their own mother of being able to commit such crimes, but they do.

Why Do They Commit These Acts Of Maternal Filicide

The motives behind such crimes aren't always straightforward. Mental health issues are often at play, although sometimes jealousy, anger, and even embarrassment can come into play. In many cases, the father, someone who has traditionally been supposed to take care of the family and provide for them, feels a sense of failure and kills his children (and often his wife) to "save them."

Parents Who Kill

It's unimaginable to think a parent, someone who is by nature supposed to protect their children, making the choice to kill them. Unfortunately, filicide (the deliberate act of killing your own child) is not as uncommon as many may think.

The accounts of these horrific true crimes have been condensed inside to simply inform and to spark your curiosity.

Why Do They Commit These Acts Of Filicide?

There are many reasons why a parent might kill their own child, from mental illness to revenge. Sometimes, the parent might be suffering from a mental illness that hasn't been properly treated. In most cases, it's a single parent who has killed their child or been responsible for their death. Sometimes, however, both parents are involved in the act as you will discover.

Kids Who Kill

Is childhood really innocent anymore? It feels like every time we turn on the news these days we're hearing a new story about a child being murdered, not by a scary stranger, but by another child.

From school shootings to abductions and family killings, kids killing kids is a very real phenomenon. It's not a new one, however; there's evidence of it going back hundreds of years—and maybe longer!

What Drives A Child To Commit Murder?

Most children find childhood to be a magical place, full of love and possibilities. For others, though, it's a frightening place. Children who grow up with abuse, neglect, and mental illness problems that are either ignored or poorly treated, occasionally suffer from breaks that make them act out violence.

Of course, there are also those kids who don't seem to suffer from a conscience at all. These kids just kill for the fun of it.

Kids who kill other kids come in a variety of types with different motivations. Sometimes, the killings are accidental. However, a lot of the children have motives and the killings are planned out in advance. Those who kill their own family members, for example, often feel a certain type of pressure within their familial settings. Whether that pressure is real or imagined is debatable. They might also be motivated by abuse or neglect.
