Crime and Criminal Justice in Disaster, Second Edition Dee Wood Harper, Kelly Frailing

Crime and Criminal Justice in Disaster aims to answer two questions: Why do some people take advantage of the disruption that disaster causes and commit crime, and what can be done about it?

The second edition of *Crime and Criminal Justice in Disaster* focuses on crime in the wake of recent disasters, including the Haiti and Chile earthquakes, the earthquake and tsunami in Japan and the BP oil spill in the Gulf of Mexico. The authors of the essays in this volume, all talented sociologists, criminologists and law enforcement officials who have had direct experience researching and working in disaster conditions, have updated their original work to investigate the longer term effects that disaster can have on crimes such as rape, fraud and looting. They have also worked to explain the actions criminal justice and other systems can take in the short and longer-term disaster aftermaths to combat and prevent crime. Entirely new essays in this edition focus on hate crime in the aftermath of 9/11 and the role that local NGOs can play in the recovery process.

The new additions to the revised edition of *Crime and Criminal Justice in Disaster* help bring us closer to a criminology of disaster and set the stage for new theorizing and research that can help us more fully understand the criminogenic effects of disaster and the best practices for criminal justice and other systems in preventing these effects.

The Teacher's Manual is available electronically on a CD or via email. Please contact Beth Hall at bhall@cap-press.com to request a copy. PowerPoint slides are available upon adoption. Sample slides from the full, 180-slide presentation are available to view [here](#). Email bhall@cap-press.com for more information.

“The second edition of *Crime and Criminal Justice in Disaster* provides a novel look at the various forms of crime that can develop during and after disasters. From street crime to elite crime and everything in between, the chapters provide solid data on the myriad social control challenges disasters present. Authors take on important topics in the field, such as the conditions under which post-disaster looting occurs, increases in violence against women that often accompany disasters and disasters that occur as the result of corporate crime. Many findings in the new edition of *Crime and Criminal Justice in Disaster* call into question taken-for-granted assumptions about disasters and their effects, while others suggest important questions for further research.” — *Kathleen Tierney, Professor of Sociology and Director of the Natural Hazards Research and Applications Information Center at the University of Colorado at Boulder*
