Essential Results of Functional Analysis (Chicago Lectures in Mathematics)

Robert J. Zimmer

Essential Results of Functional Analysis (Chicago Lectures in Mathematics) Robert J. Zimmer

Functional analysis is a broad mathematical area with strong connections to many domains within mathematics and physics. This book, based on a first-year graduate course taught by Robert J. Zimmer at the University of Chicago, is a complete, concise presentation of fundamental ideas and theorems of functional analysis. It introduces essential notions and results from many areas of mathematics to which functional analysis makes important contributions, and it demonstrates the unity of perspective and technique made possible by the functional analytic approach.

Zimmer provides an introductory chapter summarizing measure theory and the elementary theory of Banach and Hilbert spaces, followed by a discussion of various examples of topological vector spaces, seminorms defining them, and natural classes of linear operators. He then presents basic results for a wide range of topics: convexity and fixed point theorems, compact operators, compact groups and their representations, spectral theory of bounded operators, ergodic theory, commutative C^* -algebras, Fourier transforms, Sobolev embedding theorems, distributions, and elliptic differential operators. In treating all of these topics, Zimmer's emphasis is not on the development of all related machinery or on encyclopedic coverage but rather on the direct, complete presentation of central theorems and the structural framework and examples needed to understand them. Sets of exercises are included at the end of each chapter.

For graduate students and researchers in mathematics who have mastered elementary analysis, this book is an entrée and reference to the full range of theory and applications in which functional analysis plays a part. For physics students and researchers interested in these topics, the lectures supply a thorough mathematical grounding.

From reader reviews:

Mark Hart:

Hey guys, do you would like to finds a new book to read? May be the book with the concept Essential Results of Functional Analysis (Chicago Lectures in Mathematics) suitable to you? The particular book was written by famous writer in this era. The actual book untitled Essential Results of Functional Analysis (Chicago Lectures in Mathematics)is the main of several books this everyone read now. This particular book was inspired many men and women in the world. When you read this e-book you will enter the new age that you ever know previous to. The author explained their concept in the simple way, consequently all of people can easily to comprehend the core of this guide. This book will give you a large amount of information about this world now. So that you can see the represented of the world with this book.

Kenneth Handy:

Your reading sixth sense will not betray a person, why because this Essential Results of Functional Analysis (Chicago Lectures in Mathematics) guide written by well-known writer we are excited for well how to make book which might be understand by anyone who else read the book. Written inside good manner for you, still dripping wet every ideas and writing skill only for eliminate your own personal hunger then you still uncertainty Essential Results of Functional Analysis (Chicago Lectures in Mathematics) as good book not simply by the cover but also from the content. This is one book that can break don't evaluate book by its deal with, so do you still needing yet another sixth sense to pick that!? Oh come on your examining sixth sense already alerted you so why you have to listening to a different sixth sense.

Lauren Veach:

This Essential Results of Functional Analysis (Chicago Lectures in Mathematics) is new way for you who has attention to look for some information because it relief your hunger of knowledge. Getting deeper you in it getting knowledge more you know or perhaps you who still having bit of digest in reading this Essential Results of Functional Analysis (Chicago Lectures in Mathematics) can be the light food for you because the information inside this particular book is easy to get through anyone. These books build itself in the form that is certainly reachable by anyone, that's why I mean in the e-book contact form. People who think that in publication form make them feel tired even dizzy this e-book is the answer. So you cannot find any in reading a reserve especially this one. You can find what you are looking for. It should be here for a person. So , don't miss this! Just read this e-book variety for your better life in addition to knowledge.

Lidia Mejia:

As a college student exactly feel bored to reading. If their teacher asked them to go to the library or even make summary for some reserve, they are complained. Just small students that has reading's spirit or real their hobby. They just do what the trainer want, like asked to the library. They go to at this time there but nothing reading seriously. Any students feel that looking at is not important, boring in addition to can't see

colorful photos on there. Yeah, it is to become complicated. Book is very important for you. As we know that on this time, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. Therefore , this Essential Results of Functional Analysis (Chicago Lectures in Mathematics) can make you truly feel more interested to read.
