Translation, History and Arts: New Horizons in Asian Interdisciplinary Humanities Research is a collection of selected research papers originally presented at the Todai Forum in October 2011 in Lyon, France, under the auspices of the University of Tokyo, Japan. Papers selected for inclusion in this book stand at the frontier of interdisciplinary humanities research, and are concerned with translation and cross-cultural studies, social and art history, and comparative area studies. A central theme of the papers is the development of a new discursive narrative of local histories against the backdrop of world history. Through case studies of historical and modern socio-cultural events occurring in different regions and countries, this book strives to advance our understanding of the dynamic and complex interactions among distinct social and cultural systems in world history.
