Candice Millard

Destiny of the Republic: A Tale of Madness, Medicine and the Murder of a President Candice Millard

A Booklist Notable Book of 2012

The extraordinary *New York Times* bestselling account of James Garfield's rise from poverty to the American presidency, and the dramatic history of his assassination and legacy, from bestselling author of *The River of Doubt*, Candice Millard.

James Abram Garfield was one of the most extraordinary men ever elected president. Born into abject poverty, he rose to become a wunderkind scholar, a Civil War hero, a renowned congressman, and a reluctant presidential candidate who took on the nation's corrupt political establishment. But four months after Garfield's inauguration in 1881, he was shot in the back by a deranged office-seeker named Charles Guiteau. Garfield survived the attack, but became the object of bitter, behind-the-scenes struggles for power—over his administration, over the nation's future, and, hauntingly, over his medical care. Meticulously researched, epic in scope, and pulsating with an intimate human focus and high-velocity narrative drive, *The Destiny of the Republic* brings alive a forgotten chapter of U.S. history.
