JavaScript and jQuery: Interactive Front-End Web Development Hardcover

Jon Duckett

JavaScript and jQuery: Interactive Front-End Web Development Hardcover Jon Duckett
A visual and accessible guide to JavaScript and jQuery in a built-to-last hardcover edition

In *JavaScript & jQuery* renowned author Jon Duckett discards the traditional programming book template and approaches writing code in a more relevant, less intimidating way. Full-color and packed with instructional graphics and photos, his books have gained a loyal following by illustrating programming in a way both instructive for newcomers and invaluable for seasoned coders.

By discussing JavaScript and jQuery in a single text, Duckett ensures you will quickly be writing your own working scripts. Yet the book doesn't assume you have experience in either JavaScript or jQuery. By making use of popular jQuery plugins, Duckett illustrates techniques that would require pages upon pages of detailed explanation if you were being taught to create the plugins yourself. This durable and attractive hardcover edition is a book you will have open on your desk as a reference for years to come.

- A timeless and lasting version of a classic "Duckett" book in a hardbound, dust-jacketed edition
- Completely accessible to those who feel intimidated by the subject matter and relevant to all front-end designers and developers who need to understand JavaScript
- Discusses applying responsive design techniques, leveraging APIs to save you time and work in coding, and identifying when to use CSS transforms over pure JavaScript
- Beautiful 4-color illustrations and examples make this a terrific academic resource for those of all experience levels

JavaScript & jQuery clearly explains the jargon of programming, addressing the vocabulary without making it a prerequisite for readers. Duckett speaks directly to readers, making this an invaluable resource.

This book is also available as a set, *Web Design with HTML, CSS, JavaScript and jQuery Set* 978119038634 along with *HTML and CSS Design and Build Websites* 9781118871645.
