This book is an expanded edition of a document entitled "PICTORIAL PROGRESS REPORT OF THE SATURN LAUNCH VEHICLE DEVELOPMENT, Volume IV", prepared by the Propulsion and Vehicle Engineering Division of the George C. Marshall Space Flight Center, dated February, 1962. The original publication contained 49 figures; this expanded edition includes 19 new figures, and a 22-page report on the flight of Saturn SA-3. This book is not a history, or even a chronology; it is merely a collection of pictures from NASA taken in 1961 and 1962. This publication is intended to be a sourcebook for those interested in the history of the Saturn rocket family, especially the Saturn S-1 stage. In addition to the many Saturn images, two figures show testing of spacesuits and EVA techniques.
