Learning PHP 7 High Performance Altaf Hussain

Improve the performance of your PHP application to ensure the application users aren't left waiting

About This Book

- Make the optimum use of PHP coding to improve your programming productivity
- Leverage the potential of PHP for server-side programming, memory management, and object-oriented programming
- Packed with real-life examples to help the readers implement concepts as they learn

Who This Book Is For

This book is for those who have basic experience in PHP programming. If you are developing performance-critical applications, then this book is for you.

What You Will Learn

- Setup high performance development and production environment for PHP 7
- Discover new OOP features in PHP 7 to achieve high performance
- Improve your PHP applications' performance
- Attain improved database performance
- Benchmark PHP applications to optimize them
- Write quality code by learning to improve code reusability, simplicity, and expressiveness
- Get rid of the bottlenecks in your PHP 7 applications by writing PHP code optimally
- Tackle issues related to web applications, such as high user dependency and large datasets

In Detail

PHP is a great language for building web applications. It is essentially a server-side scripting language that is also used for general-purpose programming. PHP 7 is the latest version, providing major backward-compatibility breaks and focusing on high performance and speed.

This fast-paced introduction to PHP 7 will improve your productivity and coding skills. The concepts covered will allow you, as a PHP programmer, to improve the performance standards of your applications. We will introduce you to the new features in PHP 7 and then will run through the concepts of object-oriented programming (OOP) in PHP 7. Next, we will shed some light on how to improve your PHP 7 applications' performance and database performance. Through this book, you will be able to improve the performance of your programs using the various benchmarking tools discussed.

At the end, the book discusses some best practices in PHP programming to help you improve the quality of your code.

Style and approach

The book is a step-by-step guide to improve the quality of your code in PHP through real-time examples. The book takes a practical approach to improving the quality of your code.

From reader reviews:

Harold Froelich:

The book Learning PHP 7 High Performance make one feel enjoy for your spare time. You can use to make your capable more increase. Book can being your best friend when you getting tension or having big problem with your subject. If you can make reading through a book Learning PHP 7 High Performance for being your habit, you can get a lot more advantages, like add your capable, increase your knowledge about some or all subjects. It is possible to know everything if you like wide open and read a e-book Learning PHP 7 High Performance. Kinds of book are a lot of. It means that, science reserve or encyclopedia or others. So , how do you think about this e-book?

John Alfaro:

Now a day individuals who Living in the era everywhere everything reachable by connect to the internet and the resources in it can be true or not involve people to be aware of each info they get. How individuals to be smart in having any information nowadays? Of course the reply is reading a book. Reading through a book can help men and women out of this uncertainty Information particularly this Learning PHP 7 High Performance book because this book offers you rich data and knowledge. Of course the info in this book hundred % guarantees there is no doubt in it as you know.

Enrique Myers:

Do you one of the book lovers? If so, do you ever feeling doubt while you are in the book store? Attempt to pick one book that you just dont know the inside because don't judge book by its cover may doesn't work is difficult job because you are frightened that the inside maybe not as fantastic as in the outside look likes. Maybe you answer can be Learning PHP 7 High Performance why because the excellent cover that make you consider in regards to the content will not disappoint anyone. The inside or content is definitely fantastic as the outside or maybe cover. Your reading sixth sense will directly assist you to pick up this book.

Marie Velasquez:

What is your hobby? Have you heard that will question when you got pupils? We believe that that problem was given by teacher with their students. Many kinds of hobby, All people has different hobby. Therefore you know that little person like reading or as reading become their hobby. You need to know that reading is very important and book as to be the point. Book is important thing to incorporate you knowledge, except your personal teacher or lecturer. You discover good news or update in relation to something by book. Different categories of books that can you choose to adopt be your object. One of them is niagra Learning PHP 7 High Performance.
