The Cambridge Companion to Greek Tragedy (Cambridge Companions to Literature)

The Cambridge Companion to Greek Tragedy (Cambridge Companions to Literature)

As a creative medium, ancient Greek tragedy has had an extraordinarily wide influence: many of the surviving plays are still part of the theatrical repertoire, and texts like Agamemnon, Antigone, and Medea have had a profound effect on Western culture. This Companion is not a conventional introductory textbook but an attempt, by seven distinguished scholars, to present the familiar corpus in the context of modern reading, criticism, and performance of Greek tragedy. There are three main emphases: on tragedy as an institution in the civic life of ancient Athens, on a range of different critical interpretations arising from fresh readings of the texts, and on changing patterns of reception, adaptation, and performance from antiquity to the present. Each chapter can be read independently, but each is linked with the others, and most examples are drawn from the same selection of plays.
